Applied Behavior Analysis
Master of Science

If you have a passion for enhancing the development, abilities, and choices of children and adults with various disabilities or augmenting the performance and satisfaction of employees in organizations and businesses, the Applied Behavior Analysis (ABA) M.S. program may be right for you.

Is this graduate program right for me?
If you meet the following requirements, consider applying:
• Bachelor’s degree from an accredited college or university
• Undergraduate GPA ≥ 3.0
• GRE scores (no more than five years old)
• Interested in enhancing the development of adults and children with various disabilities
• Interested in performance and satisfaction of employees in the workplace

How long does it take to complete the program?
Approximately 4 semesters if you register for 9 credit hours each semester - beginning in the fall semester.

Are classes offered on campus, online or both?
• Classes are held on-campus during the weekday from 4:30 p.m. to 9:45 p.m.
• Some courses are offered online or in a hybrid format (i.e., online and in-person)

Is funding available?
The following options are available to enrolled students in good standing:
• Scholarships and graduate research assistantships
• Financial Aid
Visit Student Financial Services at sfs.gsu.edu for more information.

What career opportunities will I have after graduating?
Professionals in applied behavior analysis engage in the specific and comprehensive use of principles of learning to address the behavioral needs of widely varying individuals in diverse settings. In addition to the potential for career and salary advancement opportunities, graduates who successfully complete this program are hired as consultants to agencies such as residential treatment programs and school districts.

Other types of positions our alumni have transitioned to include:
• Clinical Supervisor at residential, clinic or home-based programs
• Behavioral Auditor

Note: The Behavior Analyst Certification Board, Inc.® has approved the course sequence and the intensive university practicum as meeting the coursework and experience requirements for eligibility to take the Board Certified Behavior Analyst Examination®. Applicants will have to meet additional requirements to qualify.
